

Sun, 13 Jan 2019 10:51:00 GMT smart card security and applications pdf - A smart card, chip card, or integrated circuit card (ICC), is a physical electronic authorization device, used to control access to a resource. It is typically a plastic credit card sized card with an embedded integrated circuit. Many smart cards include a pattern of metal contacts to electrically connect to the internal chip. Others are contactless, and some are both. Fri, 18 Jan 2019 11:36:00 GMT Smart card - Wikipedia - A contactless smart card is a contactless credential whose dimensions are credit-card size. Its embedded integrated circuits can store (and sometimes process) data and communicate with a terminal via NFC. Commonplace uses include transit tickets, bank cards and passports.
